

Hi, I am

# Ruturaj Sant

Front-end Dev

## What I Do

### Web Dev

Proficient in HTML,CSS,JS and using React framework. Also I am able to work on backend with PHP and Django. I am able manage SQL and NoSQL databases. Im always excited in finding unique ideas for cool UI and using new tools in web dev.

### Graphic Design

Taking up designing as an interest, Im skilled in making logos, posters, cards for campaigns,adverts, and social events and anything that comes in between. Along with graphic designing, Im able to develop designs for websites and skilled in Photoshop,Figma & Illustrator

### Digital Art

As I always liked drawing from childhood, I like doing digital art as a hobby. I mostly make scenic art and sketches. You can check out some of my work [here](#).

## About Me

Hello everyone!! Im a web developer based in Nagpur,Maharastra. I learned web dev during the pandemic and was instantly in love with building cool and unique websites.

Designing has always been a favourite, and whether that designing websites, logos or poster, I thoroughly enjoy doing so. Collaborating on a project is a real treat, so if you have a project in mind, I'd love to hear from you.

Currently Im a student and doing web dev part time, but I hope to build career in this field as a full stack MERN developer, and have already started learning the backend services like MongoDb & Express. I hope to get mastery in these things soon!!

When not working alongside clients, I enjoy spending time on personal projects, watching movies and anime.
